www.alphaelectronicservices.com

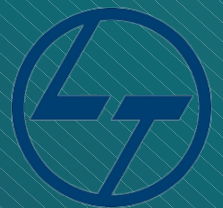

We are leading player in the Industrial electronic services. We offer doorstep services at any time. We are available 24 X 7. We are an emerging company and we offer quality service for a competitive price.

We also have a team of highly qualified and experience professionals. Our service center is equipped with latest and advanced equipments like mixed Signal Functional Test system, IC Testers, Function Generator, Frequency Counter, Linear Power Supply, Multiple Power Supply, Digital and Analog Oscilloscope and AC & DC Motors for Testing, AC & DC Drives, Advanced Soldering and Disordering Station, Advanced Multi meters, Advanced IC Programmer.

Automation

We are one of the leading automation solutions and service providers as the company personal bring. In rich and varied automation experience together with domain expertise. The company can efficiently design and execute complex industrial automation requirements. There by helping process industries acquire.

We are specialists in intelligent platforms controllers

PLC, SCADA, HMI, LABVIEW, INDUSTRIAL AUTOMATION, EMBEDDED, IOT, PROTOCOL COMMUNICATION RELATED PROJECTS, SERVO DRIVE PROJECTS.

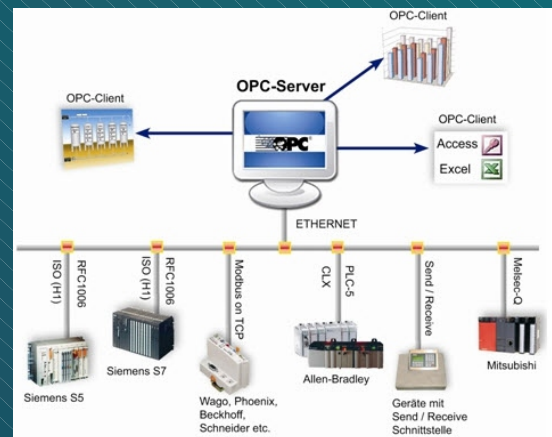

ENERGY MANAGEMENT SYSTEM, LOCAL AND REMOTE MONITERING, ENERGY BILL GENERATION, AUTOMATIC MESSAGING AND EMAILING SYSTEM.

Energy Saving VFD Panel

VFD drives are known as Variable Frequency Drives. Over 30 percent of the world's electrical energy is consumed by electric motors in fixed speed fan, pump and air compressor application. The basic idea for using a VFD on mills, air compressors and fans is to decrease the amount of electrical energy being consumed to reduce electricity costs.

- DC Drive to AC Drive
- Two Phase Power to Three Phase Drive Power
- Star Delta Contactor to AC Drive
- Compressor Application
- Fan & Pump Application
